Dear Fernanda,

We are writing to inform you of a festival which we are holding at the end of March, the main theme of which will be the solidarity of the ethnic minority groups in this country.

The idea of the festival will be to give the opportunity to the ethnic minority groups to display their cultures and to educate others about the problems that they face and how we can all help to solve them.

The festival shall run for four days from Thursday 26th March to Sunday 29th March, with each evening commencing at 7.30 p.m.

Each evening will be divided into two parts i.e. two groups per evening. The idea will be to give a performance and then perhaps a brief talk on the problems and aspirations of that particular minority, followed by an open discussion with the audience once both groups have completed their pieces.

We would very much like you to take part in our festival as we feel that you would be able to make a positive and educational contribution, and help to strengthen the ties of solidarity between immigrant communities in this country.

So if you are free during this period and are at all interested in taking part please contact us on the above telephone number or drop us a line, as soon as possible, so that we can get the publicity going.

Thanking you in anticipation, we remain,

Yours Sincerely,

A. Georgiou
